Dear Attorney Hesse:

I write to submit public comment in support of the settlement proposed in the case of U.S. v Microsoft.

Consumers across the nation have benefited greatly from Microsoft's innovation. In fact, they have often forced the market to offer products and services at a lower price with better quality. Considering that anti-trust violations are designed to protect consumers from harm, I believe that the government's efforts are off base in this case.

I have also personally benefited from Microsoft's excellence in technology. As a small business person, I am able to run my operations in an extremely efficient and cost effective way by using the company's software.

Please approve this settlement so that Microsoft can continue to make a positive difference in the lives of businesses and consumers.

Thank you for your dedication and public service.

Sincerely,
Jayne Marcucci
